

HOLE GRID VACUUM TABLE

SAV 249.02SL

Use :

For clamping polymers and wood

Features :

- Base (6mm) and top plate (8mm) in aluminum
- Polyethylene body 15mm
- Vacuum holes with a pitch of 10x10 mm
- Holes diameter 5/0,3 mm
- For pipe outer diameter 10mm

Standard delivery :

- 1 vacuum table + connectors
- 1 supply pipe
- 1 martyr plate

For mounting the table on the machine table:

1. remove the base plate and attach it to the machine using the grooves in the plate (grooves always parallel to the width of the plate)
2. reassemble and screw the central and upper part back onto the base plate

Dimensions en mm					
Active length	Active width	Dimensions overall	Height	Nb holes	Weight in kg
200	120	210x120	29	2	3,0
200	160	210x160	29	2	3,5
200	200	210x200	29	2	4,0
260	160	270x160	29	2	4,0
300	200	310x200	29	2	5,0
400	200	410x200	29	2	6,5
400	300	410x300	29	4	8,5
450	300	460x300	29	4	10,0
500	300	510x300	29	4	11,5
500	400	510x400	29	4	13,0
600	400	610x400	29	4	15,5
500	500	510x500	29	4	13,0
600	500	610x500	29	6	17,0
1000	400	1010x400	29	8	25,0
800	600	810x600	29	8	19,0
1000	500	1010x500	29	10	30,0
1000	600	1010x600	29	10	35,0

Base plate with grooves clamping across the width
